

# Reference sheet for Power Boxes & DIB setup for each

### POWER BOX COMPATIBILITY

| PRODUCT SERIES      | POWER BOX        |
|---------------------|------------------|
| S2800               | N/A              |
| S950 HH             | PS411            |
| S950 TAB/CAM        | HC4417-PO        |
| S1500               | HC4417-PO        |
| S2000 Hidden Cable  | HC4417-PO        |
| S2000 Exposed Cable | HC4417-PO        |
| HS200               | HC4417-PO        |
| HS100 HH            | PS412            |
| HS100 TAB           | N/A              |
| S1000 5V            | HC4412-PO        |
| S1000 18V           | HC4417-PO        |
| S940 HH             | HC4412-PO        |
| S940 CAM            | HC4417-PO        |
| LTO3                | PS412 (Optional) |
| Zips Power          | PS412            |
| Zips                | Not Required     |

## Power Box & Digital Interface Box Compatibility

### POWER BOX COMPATIBILITY

| POWER BOX MODEL                                                                                                                                                                                                                                                                    | COMPATIBILITY                        | ADDITIONAL REQUIREMENTS                                                                                                                                                                      |
